

Everyone knows that big money special interests are a huge problem in our political system. They stifle the voices of those that can't compete with them financially. They fund candidates that will then in turn vote for their interests, often ignoring the long term needs of the community. That's why I want to make my City Council campaign a "Clean Money" campaign.

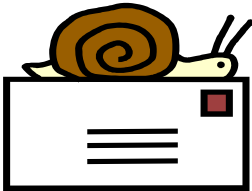

But I can't do this without your help. I still need to send out mailers and put up campaign signs. All of that takes money.

If all of you send in even a small contribution, your check will allow me to compete on a level playing field. If you like my campaign platform, please consider making a donation. Clean money begins with you!

## My Clean Money Pledge

**You can count on me to do what I have promised because** I will not accept campaign contributions from developers, or their consultants, engineering firms, construction companies or attorneys. I will file all funding reports on time so that the public can see who has given me money. I will adhere to the Code of Fair Campaign Practices.
